Policy of Waste Management

Rajasthan Shikshak Prashikshan Vidhyapeeth, Jaipur realizes sustainable and holistic waste management essential in reducing its environmental footprint and providing a safe and healthy work environment for teaching, non-teaching staff students and visitors.

The institute has a duty to ensure that all campus waste are disposed of responsibility by using proper waste segregation mechanism at the source and if possible converting it into value added environmental friendly products.

Purpose

- To ensure proper disposal of waste from activities conducted by or overseen by facilities management staff.
- To minimize waste generation at source and facilitate repair, reuse and recycling over the disposal of waste in a cost effective manner. To provide appropriate training for teaching non-teaching staff and students on waste management issues. To promote holistic approach of waste management in campus.

Scope

- This policy will be applied to all waste disposal activities by facilities management staff or contractor working for facilities management and to all the employees and students of Rajasthan Shikshak Prashikshan Vidhyapeeth.

Procedure

Solid waste management

- Institute will apply a waste hierarchical approach to reduce, reuse, recycle and recover waste products.
- Solid waste at the canteen and hostel will be segregated at source using green and blue dustbins organic waste is collected in green dustbin and non-degradable waste is collected in blue dustbins collection and pickup of waste is done by housekeeping staff and municipality will collect the solid waste for further disposal.
- Staff are responsible for depositing their waste in the nearest appropriate trash can and closing the lid.
- Metals including aluminium, steel, copper can be deposited in the beverage collection bins.
- Cardboard should be flat and placed next to any recycling receptacle.
- Single use plastic is strictly prohibited in the campus.

Liquid waste management

- Waste water of kitchen and canteen is recycled and using it for the trees and plants.
